

# Trackblind®

Track Guided System

Trackblind can create Alfrescos, Pergolas,  
and verandahs into functional outdoor rooms.

Areas can be used all year round with Sunscreen Mesh or Clear\ tint PVC

Enclosed side splines for enhanced visual look and weather protection

Slim tracks and channels 55mm x 25mm

Integrated fabric clamps on base rail end caps

## Tracks & Channels

Channels & tracks are a slim 55mm x 25mm in size. The Side channels have an allowance of 10mm movement for out of square applications and making the fabric taut. The 3mm Kadar is welded on to Mesh or PVC concealing the spline and weld inside the tracks.

## Enclosed Square Hood 175mm & 135mm

Cast end hood ends  
Colourbond hood

165mm x 175mm

135mm x 135mm

## Maximum Width and Drop

6000 x 3300mm Motorised and Crank  
4900 x 3300mm Spring Operation  
4000 x 2700mm - 135mm Hood  
[anything larger will require 175mm Hood]

6000mm Width

4900mm Width

Motorised

Spring Operation

3300mm Height

## Minimum Widths

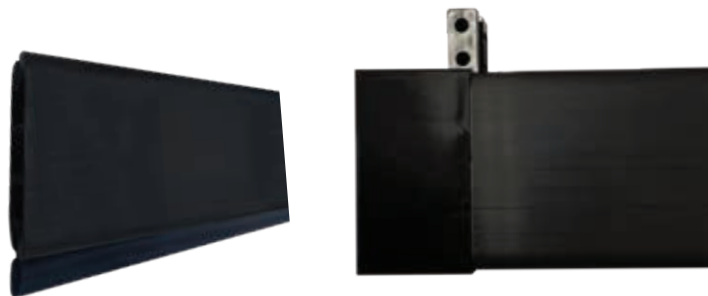

700mm for Motors/Spring  
500mm for Crank

## Heavy Duty Bottom Rail

70mm x 30mm

The weighted heavy bottom rail Allows fabric to glide up and down tracks without any friction or the possibility of the blind stopping half way down.

Finished with standard 15mm bumper or optional 30mm bumper for uneven surfaces  
Larger PVC valances are available to completely block out light, wind and debris.

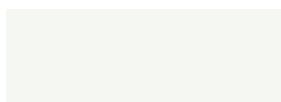

## Dulux Colours

All our systems are available in popular Colourbond colour selections, powder coating in other colours at additional costing.
