FOLDING ARM AWNING

iOS

FOLDING ARM AWNING

EUROPEAN DESIGNED
MADE IN MELBOURNE (AUS)

The iOS folding arm awning is built using the highest quality materials.

Engineered for superior versatility, durability and elegance, the iOS folding arm can do it all.

- Tension and spring loaded pvc coated twin stainless steel cables for protection against corrosion
- HTA (high torsion arms) ensures ultimate fabric tension
- Front bar spirit level enables the awning to be perfectly level at all times
- Heavy extruded front bar with built in rain gutter
- Pitch adjustment 5 degrees to 45 degrees
- 78mm steel roller tube
- Awning width from 1800mm to 12000mm
- Projection from 1500mm to 4000mm
- Available as manual gear box or motorised
- Maximum wind speed 38kms
