# The Pleated Screen for your home

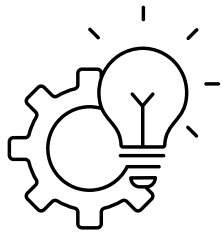

Our Standard Pleated Flyscreens are our top-selling product from its convenience in flexibility from wide range of sizes for customized fabrication, easy installation with adjustable cord tension and its invisibility when the screen stacks back into the track \*Size dependant. The pleated feature allows the mesh to fold and stack back against another with great ease and occupies minimal space. The Magnetic strip feature allows smooth gliding and creates perfect enclosure.

The Standard Pleated Flyscreen is most renowned for its replaceable mesh system. If any accident had happened to the mesh, don't worry as we can replace the mesh for you under our mesh replacement program without removing the frame.
